RECLAIMING INDEPENDENCE

Partnering with Community Brain Injury Services helps build back lives

Experiencing a brain injury is a life-altering event that impacts the individual, the caregiver, and the entire community supporting the individual. The individuals we support are navigating the resulting lifelong disability they have as a result of their brain injury.

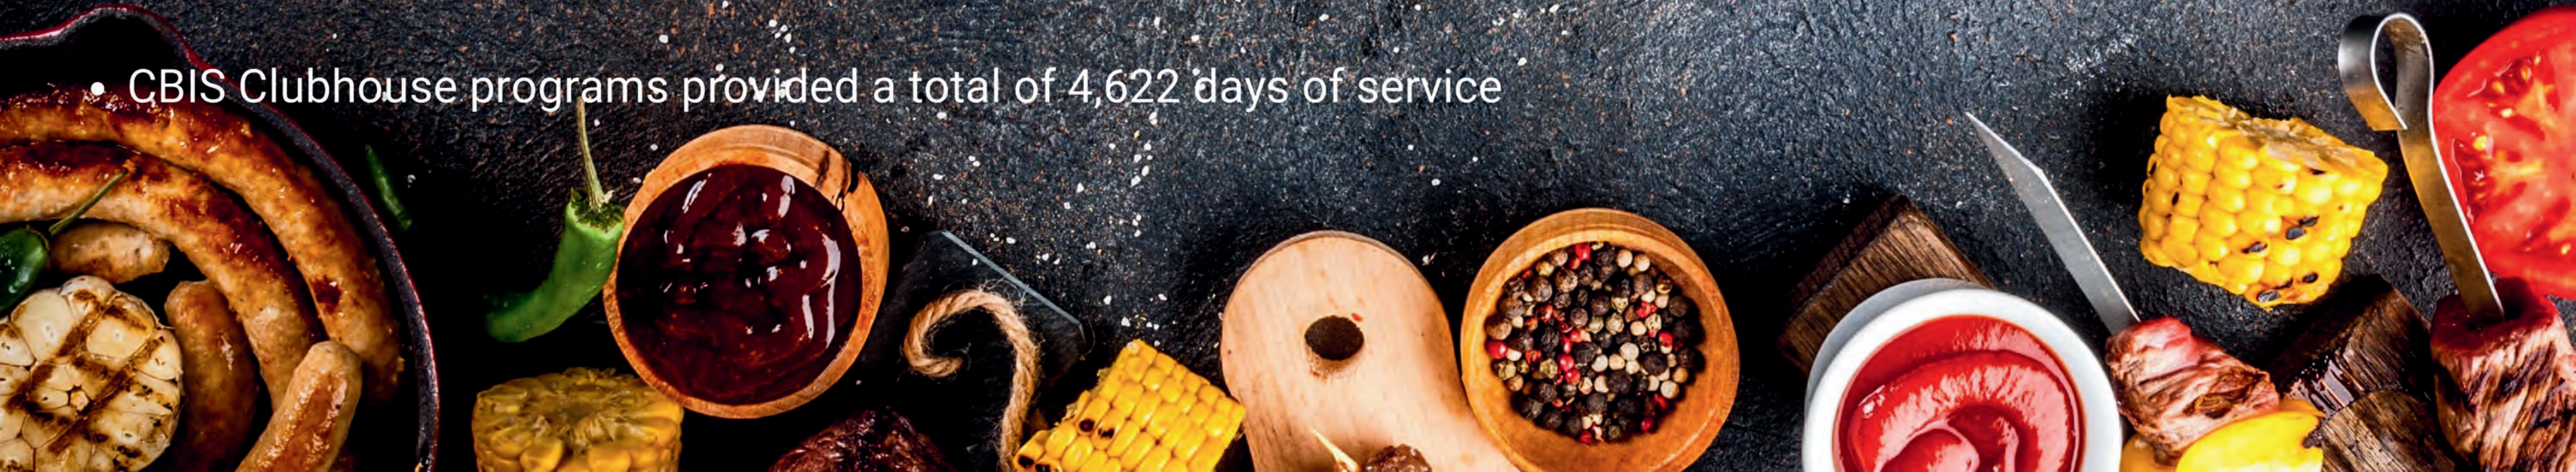

Community Brain Injury Services helps brain injury survivors build back independence by helping individuals set up needed supports to live independently safely, reengage with their community, return to competitive employment, and offer supports within a supportive network of peers.

OUR WORK

Recent Accomplishments

- Served 530 persons last year, a 15% increase from the year prior
- Conducted over 123 public awareness, education, and outreach events last year reaching over 2448 individuals
- Led advocacy efforts for increased funding from our local and state partners, resulting in dedicated workforce retention funding to be able to increase our starting salaries to attract and retain qualified staff, and dedicated money to strengthen and expand current services- resulting in additional case management positions to address our wait list in the Metro Richmond area
- CBIS case managers reported a total of 3,883 contacts with clients during the year
- CBIS Clubhouse programs provided a total of 4,622 days of service
