RECLAIMING INDEPENDENCE

Partnering with Community Brain Injury Services
helps build back lives

Experiencing a brain injury is a life-altering event that impacts the individual, the caregiver, and the entire community supporting the individual. The individuals we support are navigating the resulting lifelong disability they have as a result of their brain injury.

Community Brain Injury Services helps brain injury survivors build back independence by helping individuals set up needed supports to live independently safely, reengage with their community, return to competitive employment, and offer supports within a supportive network of peers.

OUR WORK

RECENT ACCOMPLISHMENTS
